# ILLUSTRATED PERFORMANCE

RhinePro Paint Protection Film sets the International standard for:

## Ultimate Performance

Built with advanced engineered layers, RhinePro Paint Protection Films are developed to give you peace of mind for everyday vehicle usage.

Our advanced protection preserves OEM paint finishes against daily environmental and road conditions such as stone chips, enhance appearances gravel, scratches, insects, bird droppings and road debris.

## Enhance Appearance

A car in perfect condition has faultless paintwork. Driving will expose the bodywork to the elements and everyday wear and tear, with your paintwork taking the punishment.

RhinePro PPF create an advanced barrier between the elements and your car's precious paintwork, protecting it with superior stain resistance, and extreme durability against impacts and scratches, even self-healing so that your paintwork is always looking factory-fresh.

## Consistency

RhinePro PPF adapts well to complicated surfaces and shapes, and it is simple to remove without ripping or breaking, because to its low temperature flexibility.

We guarantee to providing extensive installation to ensure you have maximum peace of mind and the optimum performance product. Any flaws that influence the performance of our PPF will be covered under our warranty programme.

# BEYOND AUTHENTIC PROTECTION

We have developed the strongest, most long-lasting protection you can give your car. Each RhinePro paint protection film is built with up to five vital layers to ensure that beautiful painting is preserved even in the most harsh situations.

## PROTECTIVE (CAP) SHEET

Removed before applying the film, protects the surface to maximize the gloss and smoothness.

## SELF-HEALING TOP COATING

The first line of defence, providing advanced stain resistance and superior self-healing, combined with an ultra high gloss or smooth matte finish.

## POLYURETHANE FILM

A strong and conformable polyurethane (TPU) film provides impact resistance to debris and exceptional durability.

## ADHESIVE

Creates a secure and safe bond with your bodywork, Removable at the end of life-time.

## PROTECTIVE SHEET

Removed before applying the film.

# RHINEPRO PPF SERIES

Our "RhineProCUT" database system has all of the vehicle pre-cut patterns widely available, allowing us to reduce film waste and boost installation efficiency, ensuring that our clients receive top-notch service.

RhinePro PPF is now one of the most well-known international brands. As global market, we pledged to give the most innovative product to all our accredited dealers so that our customers may feel confident in their decision to use our product.

- RhinePro R1 Series [215 microns/8.5 MIL] is our most advanced next-generation paint protection film, providing ultimate performance and extreme protection, whilst enhancing the vehicle's finish.
- Next generation XCOAT PRO™ top-coating offers extreme stain resistance from fall out, droppings and roadgrime.
- Ultra-gloss, high transparency and non-yellowing film to maintain the car's aesthetic looks and resale value
- Stone chips, scratches and scuff marks become a thing of the past with the self-healing top coating with minimal heat from sun, engine or other source.
- Outstanding durability and weathering protection with 8 years warranty.

- The RhinePro R2 Series [190 microns/7.5 MIL] is our most sophisticated next-generation paint protection film, delivering maximum performance and high protection while also improving the vehicle's appearance.
- Next generation XCOAT™ top-coating offers extreme stain resistance from fall out, droppings and roadgrime.
- Ultra-gloss, high-transparency, non-yellowing film to keep the car's attractive look and resale value.
- Stone chips, scratches and scuff marks become a thing of the past with the self-healing top coating with minimal heat from sun, engine or other source.
- Outstanding durability and weathering protection with 6 years warranty.

- The RhinePro R3 Series [160 microns/6.5 MIL] is our advanced next-generation paint protection film, delivering best performance and protection while also improving the vehicle's appearance.
- The RhinePro R3 Series offers high stain resistance from fall out, droppings and road grime.
- Gloss finishing, best-transparency film to keep the car's attractive look and resale value
- Stone chips, scratches and scuff marks become a thing of the past with the self-healing top coating with minimal heat from sun, engine or other source.
- Great durability and weathering protection with 4 years warranty.

- The RhinePro MATTE Series [190 microns/7.5 MIL] is our most advanced next-generation paint protection film, delivering best performance and protection while also improving the vehicle's appearance.
- Matte-paint finishes – famous for their flat, non-reflective appearances and sandy, rough textures – have become an increasingly trendy part of the automotive landscape.
- The Matte Series of RhinePro PPF is used to protect the surface of your vehicle. Once applied this PPF film will give a frozen look to your current paint color and also protect your paintwork from stone chips and general wear and tear.
- The ease of installation is amazing with this film, along with the non-yellowing and self-healing features provided by its clear coat layer.
- Next generation XCOAT PRO™ top-coating offers high stain resistance from fall out, droppings and road grime. Outstanding durability and weathering protection with 6 years warranty.

- VIBRANCE series [190 microns/7.5 MIL] is our most advanced next-generation colourful paint protection film.
- XCOAT™ topcoat technology.
- High-gloss, high transparency and non-colour fading.
- Advanced self-healing top coating with minimal heat from sun, engine or other source.
- Great durability and weathering protection with 6 years warranty.
